## 2023 Cemetery Products

### Christmas Wreaths

All the Christmas Wreaths are made fresh from forest grown Balsam Fir. Each of the wreaths are fashioned by hand. The Balsam Fir has the very best needle retention of all the evergreens. All wreaths are treated with "Greenzit" to preserve the freshness throughout the season.

The Classic Wreath is decorated with 3 white tipped pinecones laced with jingle bells and accented with a generous velveteen bow which has a brushed gold backing.

### Cemetery Cross

The popular Balsam Fir Cemetery Cross is 30 inches tall and comes decorated with either a Classic or Remembrance Bow.

When purchased through Epiphany we will mount the Classic Wreath and Cemetery Crosses on a heavy-duty wreath stand that will keep the wreath or cross standing straight up not leaning back. This stand should be able to keep the wreath and cross standing up during all types of weather. We will place your order the week after Thanksgiving and remove them the middle of January.
